Overcast and cloudy, with moderate to gentle Southeasterly breezes. Standing out to sea in charge of Navigator and clearing foul anchor.

(Signed) GILBERT WILKES, Acting Lieutenant.

6 p. m. to 8 p. m.

Overcast, with rain squalls from N. W. Shifting to South and East. Standing out to sea. Cleared foul anchor at 6:00; took departure 6:30 Whistling Buoy on port beam. Patent log 8. knots. Shaped course S. S. E. $\frac{1}{2}$ E. Engineer reported boiler "C" in use at 7:40.

(Signed) T. H. NEWBERRY, Acting Lieutenant.

8 p. m. to midnight.

Overcast, with light S. E. winds. Ship on course S. S. E. $\frac{1}{2}$ E. At 8 Cape Henry Light bore N. W., P. L. 22. At 8:46 ARMERIA dropped behind; slowed to 10 knots. At 10:00 changed course to S.

by E. p. c. At 11:12 changed course to S. $\frac{1}{2}$ E. p. c. P. L. 53.1 knots. At 12 Chief Engineer reported av. steam for watch 130 lbs., av. vacuum 25 lbs., total revolutions 10,290, coal consumed 6 tons, 300 lbs. Occasional showers at beginning of watch, clearing towards end. Soundings by Thompson's machine: 9:00, 9 fathoms; 10:00, 10 fathoms; 11:00, 14 fathoms; 12:00, 13 fathoms.

(Signed) C. E. LOTHROP, Acting Lieutenant.

JAS. T. SMITH,
Lieutenant and Navigator.

U. S. S. YOSEMITE,

At Sea, en route to Key West, May 31st, 1898.

Commences and until 4 a. m.

Cloudy, clearing towards end of watch. Light breezes from S. E. U. S. S. ARMERIA in sight. At 3:00 changed course to S. W. $\frac{1}{8}$ W. Pat. Sdg. 93.7 18 fms. Engine room report, steam pressure 130, vacuum 24, total rev. 2,585, coal consumed 4.75 tons.

(Signed) F. L. EATON, Acting Ensign.

4 a. m. to 8 a. m.

Cloudy, with moderate to stiff breezes from Northward and Eastward. Took departure at 7:35, heading W. S. W. (p. s. c.). Diamond Shoal Light Ship abeam 2.7 miles distant. At 7:37 changed course to S. by W. $\frac{1}{8}$ W. (p. s. c.), and at 7:41 to S. S. W. $\frac{1}{8}$ W. Changed course at 8:00 to S. W. P. L. 145.7 knots.

(Signed) GILBERT WILKES, Acting Lieutenant.

8 a. m. to meridian.

Cloudy, with fresh breezes from North. Course S. W. (p. s. c.). P. L. 145.7 knots. Commanding Officer ordered speed increased one knot. Inspection of bags. Signalled latitude and longitude to ARMERIA at noon. Sun obscured, no observation. Changed course to S. W. by W. $\frac{1}{4}$ W. (p. s. c.). P. L. 192.5 knots. Depth by Thompson's machine, 45 S.

(Signed) T. H. NEWBERRY, Acting Lieutenant.

Meridian to 4 p. m.

Slightly cloudy; warm; moderate Northeasterly breezes. Ship on course S. W. by W. $\frac{1}{4}$ W. Speed approx. 12 knots. At 2:15 by direction of Commanding Officer speed reduced one knot per hour. At 4:00 ARMERIA being close aboard, increased speed to 12 knots by direction of Commanding Officer. Soundings by Thompson's machine as follows: 1:00, 30 fms.; 2:00, 23 fms.; 3:00, 21 fms.; 4:00, 21 fms. At the 1:00 sounding P. L. fouled with sounding machine and had to be taken in. At the 2:00 and 3:00 soundings log was taken in ten minutes to avoid further fouling. Average steam pressure, 138 lbs.; average vacuum, 25 lbs.; coal consumed, 4.8 tons.

(Signed) C. E. LOTHROP, Acting Lieutenant.

4 p. m. to 6 p. m.

Clear and warm; moderately northeasterly breezes. Ship on course S. W. by W. $\frac{1}{4}$ W. At 4:00 speed increased to 12 knots by direction of Commanding Officer. Soundings: 4:00, 21 fms.; 5:00, 20 fms.; 6:00, 20 fms. P. L. 4:00, 231.3; 5:00, 241.4; 6:00, 52.4. Fales and Steel, quartermaster's port watch. Clark and Stratton, starboard watch. Coal consumed, 4 tons, 1,760 lbs. Total revolutions 12,126, vacuum 25", pressure 140 lbs., revolutions per minute 56. Guns loaded; bags up.

(Signed) F. L. EATON, Acting Ensign.

6 p. m. to 8 p. m.

Clear and pleasant. Gentle and moderate N. and E. breezes. By direction of Commanding Officer slowed down one knot at 7:45. At 8:00 course S. W. by W. $\frac{3}{4}$ W. (p. s. c.), P. L. 74.8.

(Signed) GILBERT WILKES, Acting Lieutenant.

8 p. m. to midnight.

Clear; fresh Easterly breezes. Course S. W. by W. $\frac{1}{2}$ W. At 9:00 changed course to S. W. (p. s. c.). Depth, 10 fms. Ahead full speed, 11 knots at 9:10. Shifted course to Westward 1 point to pass schooner; on course at 9:50. Depth, 10 fms.; 15 fms. at 12 M., 19 fms.

(Signed) T. H. NEWBERRY, Acting Lieutenant.

JAS. T. SMITH,

Lieutenant and Navigator.

U. S. S. YOSEMITE,

At Sea, making passage for Key West, June 1st, 1898.

Commences and until 4 a. m.

Cloudy, clearing towards end of watch. Fresh Easterly breezes. Ship on course S. W. (p. s. c.). Speed approx. 11 knots at beginning of watch. At 1:10 the U. S. S. ARMERIA having fallen behind considerably, speed was ordered reduced $\frac{1}{2}$ knot. At 2:40, the ARMERIA still falling behind, the Commanding Officer directed a further reduction of $\frac{1}{2}$ knot per hour. Soundings: 2:00, 23 fms.; 4:00, 22 fms.

(Signed) C. E. LOTHROP, Acting Lieutenant.

4 a. m. to 8 a. m.

Clear and warm, with moderate breeze from N. E. Ship on course S. W. until 4:29; changed to S. W. $\frac{1}{2}$ S. by direction of Commanding Officer. P. L. 57.2. Soundings: 5:00, 63 fms.; 6:00, 69 fms.; 7:00, 70 fms.; 8:00, 70 fms. At 7:00, ARMERIA being abeam, speed increased one knot. Engine room report: pressure 139, vac. 23, total revs. 11,593, coal consumed 5.5.

(Signed) F. L. EATON, Acting Ensign.

8 a. m. to meridian.

Clear and warm, with moderate breeze from N. N. E. Exercised at collision drill and stations for abandoning ship. By order of Commanding Officer, ——— (O. S.) was given two hours extra duty

on gun deck, under charge of corporal of guard during each of his watches for three days, for disobeying orders of a sentry; and ——— (O. S.) one week extra duty for smoking on aft gun deck.

(Signed) GILBERT WILKES, Acting Lieutenant.

Meridian to 4 p. m.

Clear, with moderate Easterly breezes. Course S. W. $\frac{1}{2}$ S. p. s. c. Depth, 64.8 fms. Crew scrubbing hammocks. 1:40 slowed one knot. Depth, 248 fms. At 2 p. m. changed course to S. $\frac{3}{4}$ W. p. s. c. P. L. 57.4. Depth 258 fms. Depth at 4:00, 258 fms.

(Signed) T. H. NEWBERRY, Acting Lieutenant.

4 p. m. to 6 p. m.

Clear and pleasant, with light Easterly breezes. Ship on course S. $\frac{3}{4}$ W. Speed approx. 10 knots until 4:58, when ARMERIA being on port quarter, speed was ordered increased to 11 knots by Commanding Officer. Soundings: 4:00, 25 fms.; 6:00, 65 fms.

(Signed) C. E. LOTHROP, Acting Lieutenant.

6 p. m. to 8 p. m.

Clear and warm, with Easterly breezes. Ship on course S. $\frac{3}{4}$ W. p. s. c. Speed 11 knots. Soundings: 6 p. m., 65 fms. Engine room report: rev., 11.879; pres., 140; vac., 25; coal consumed, 4.7.

(Signed) F. L. EATON, Acting Ensign.

8 p. m. to midnight.

Clear and pleasant, with moderate breezes from Southward and Eastward. At 9:10 changed course by direction of Commanding Officer to South by East. P. L. 26.6.

(Signed) GILBERT WILKES, Acting Lieutenant.

JAS. T. SMITH.

Lieutenant and Navigator.

U. S. S. YOSEMITE.

At Sea, making passage to Key West, June 2nd, 1898.

Commences and until 4 a. m.

Partly cloudy, with fresh S. E. breezes. Course S. by E. p. c. No bottom at 100 fms. at 2:00 and 4:00.

(Signed) T. H. NEWBERRY, Acting Lieutenant.

4 a. m. to 8 a. m.

Partly cloudy; warm and pleasant, with light Southeasterly breezes. Ship on course S. by E. p. c. Speed approx. 11.0 knots. At 5:00 changed course by order of Commanding Officer to S. by W. $\frac{1}{2}$ W. At 6:00 swung ship to take azimuth from S. E. to S. W. At 8:00 changed course to South p. c. by order of Commanding Officer. Soundings: 6:00, no bottom at 115 fms.; 8:00, no bottom at 85 fms. Av. steam pressure, 136 lbs. Average vacuum, 25 lbs. Total revs., 12,962. Coal consumed, 5.5 tons.

(Signed) CYRUS E. LOTHROP, Acting Lieutenant.

8 a. m. to meridian.

Clear and warm, with light Southerly breeze. Course changed to S. at 8:00 a. m. Speed 11 knots till 12, when reduced to 10 by order of Commanding Officer, and at 12:30 reduced to 9 knots by direction of Commanding Officer. P. L.: 8:00, 37.7; 9:00, 50.0; 10:00, 60.0; 11:00, 73.3; 12:00, 84.0. Soundings: 10:00, 59+; 12:00, 36.00. Flood cocks tested and in working order. General quarters at 9:26. Surgeon's Department reported in 2 minutes; Paymaster's Department, 3 minutes 30 seconds; First Division, 8 minutes; Second Division, 4 minutes 30 seconds; Third Division, 6 minutes; Fourth Division, 4 minutes; Fifth Division, 5 minutes, 30 seconds; Sixth Division, 4 minutes, 30 seconds; Seventh Division, 8 minutes. Engine room report: steam 130, vacuum 24.5, revs. 13,377, coal consumed 6.3.

(Signed) F. L. EATON, Acting Ensign.

Meridian to 4 p. m.

Clear and pleasant, with moderate breeze from S. E. At 3:00 changed course to S. $\frac{7}{8}$ E. and increased speed one knot. At 3:07 ARMERIA signalled her noon position: Lat 28° 27', Long. 80° 01'.

(Signed) GILBERT WILKES, Acting Lieutenant.

4 p. m. to 6 p. m.

Clear and cool; moderate Easterly breezes. Ship on course S. $\frac{7}{8}$ E. p. c., and increased speed one knot. 4 p. m. depth 20 fms.; 5:00, 22 fms.; 6:00, 29 fms. Crew washing hammocks.

(Signed) T. H. NEWBERRY, Acting Lieutenant.

Moderate breeze. Clear and smooth. Temperature of magazines: Forward 85-86, mid. 84-85, aft 85-88. Following changes in rating have been made by order of Commanding Officer:

| | Date of New Rating. |
|---------------------|---|
| Green, J. F..... | From Mach. 1 cl. to Ch. Mach. September 1st, 1898 |
| Walker, L. S..... | From Sea. Gr. to G. M. 2 c. September 4th, 1898 |
| Timperly, E. C.... | From Elec. 2 c to Elec. 1 cl. September 1st, 1898 |
| Braner, H. F. W.. | From Q. M. 1 c. to Ch. Q. M. September 3rd, 1898 |
| Olsson, J..... | From Sea. to S. M. M. September 3rd, 1898 |
| Blakeley, J. A..... | From Yeo. 1 c. to Ch. Yeo. September 3rd, 1898 |

Ammunition hoists tested and found in good order. 9:31 Gt. Inn-

gua Lt. House abeam. Distant 7 miles. Course S. E. $\frac{1}{2}$ S. 11:00
Highland of Haiti in sight off port bow. No change.

(Signed) JOHN BURNS, Ensign.

Meridian to 4 p. m.

Clear, warm and pleasant. Moderate breeze from Northward to
Eastward. Anchored inside St. Nicholas Mole at 2:50 o'clock in 21
fathoms of water, 55 fathoms chain. Commanding Officer visited U.
S. S. AMPHITRITE in harbor. Bearing at anchorage: Left Tan Old. Ft.
E. $\frac{7}{8}$ S.; Right Tan battery S. S. W. $\frac{1}{2}$ W. Ship's head N. E. $\frac{5}{8}$ E. 21
fathoms water, 55 fathoms chain to port anchor. Ship's draft forward
18 feet, 6 inches; aft 20 feet. Anchored 2:55.

(Signed) GEORGE BREED, Lieutenant.

4 p. m. to 6 p. m.

Fair and warm. Moderate breeze from N. E. by N. and N. E. Got
up sheet chain and made chain bridle preparatory to towing U. S. S.
AMPHITRITE.

(Signed) C. D. STEARNS, Ensign.

6 p. m. to 8 p. m.

Fair and warm. Gentle breezes from N. E. Johnston (Sea.) and
Ennis (app.) received from U. S. S. AMPHITRITE with bags and
hammocks. Signalled U. S. S. AMPHITRITE for permission to test
search lights, which was granted. Highest temperatures of maga-
zines 86°.

(Signed) J. L. STICHT, Ensign.

8 p. m. to midnight.

Fine and pleasant. Light S. E. breeze.

(Signed) JOHN BURNS, Ensign.

WILLIAM P. WHITE,

Lieutenant and Navigator.

At sea, September 13th, 1898.

Midnight to 4 a. m.

Clear, cool and pleasant. Light breeze from E. S. E. and S. E.
Barometer steady.

(Signed) GEORGE BREED, Lieutenant.

4 a. m. to 8 a. m.

Fair. Light variable breeze. Made preparations for towing U.
S. S. AMPHITRITE.

(Signed) C. D. STEARNS, Ensign.

8 a. m. to meridian.

Fair and warm. Light breezes from S. E. At 10:20 got under way. Took U. S. S. AMPHITRITE in tow at 11:11, when tow line carried away about 100 feet from YOSEMITE after which stood by to put out new hawser. Signals as per list below. At 9:30 mustered at quarters. Absentees: ———— (G. A. 2 c.), ———— (O. S.), ———— (a. 2 c.), ———— (a. 2 c.), ———— (a. 2 c.), ———— (lds.), ———— (bay.), ———— (C. P.), ———— (C. P.), ———— (C. P.), ———— (C. P.), ———— (C. P.), ———— (pvt.), ———— (lds.), ———— (pvt.), ———— (G. M. 1 c.), ———— (w. t.). Held divisional drills. Ship's draft, aft 20 feet, 00 inches, forward 17 feet, 11 inches. Signals: 7:30 from A to Y—to captain—What time are you going ashore? 8:05, Y to A—What were the first four words? 8:05 a. m., A to Y—to captain—What time? 8:10, Y to A—At half-past eight. 10:05, A to Y—Get under way. 10:55, A to Y—Stop. 10:55, A to Y again—Go ahead. 11:00, A to Y—Go ahead when you are ready. 11:02, Y to A—The hawser has parted. 11:11, A to Y—Have you got another hawser? Y to A—Yes. 11:40, Y to A—As soon as fitted, will send several hawsers on board. 11:40, A to Y—We are not ready yet. 11:50, Y to A—I am sending boat for broken line. Please let boat have it. Paymaster Lovell of the AMPHITRITE came on board as a passenger.

(Signed) J. L. STICHT, Ensign.

Meridian to 4 p. m.

Light S. W. wind. Stopping and going ahead to keep ship in position while repairing towing hawser. 3:20 ahead slow, towing AMPHITRITE 3:50 50 revolutions. On course N. by W. $7\frac{3}{8}$ W. 3:40 ———— (Sea.) put in brig for intoxication. Signals: 12:35, A to Y—We will take half an hour for dinner. Then will be ready for towing. 1:25, A to Y—We will keep your broken hawser on board here. 1:30, Y to A—All right, I wanted it to splice an end I have here in case other hawser parted. 2:00, Y to A—The new hawser is already fitted. 2:00, A to Y—Send it over. 2:40, Y to A—I have to go ahead to straighten out. 2:45, A to Y—Head more to Southward. 3:00, A to Y—Pull us clear of this point and pick up boat afterwards. 3:00, A to Y—Stop and pick up your boat. 3:30, A to Y—Increase speed slowly to 8 knots. 3:35, Y to A—7 compass. 4:00, Y to A—We are going as fast now as I think it safe without you give her more chain. With 30 fathoms of chain out can steam much faster.

(Signed) JOHN BURNS, Ensign.

4 p. m. to 6 p. m.

Clear and warm. Light airs from North. Towing AMPHITRITE. Course N. by W. $7\frac{3}{8}$ W. Land in sight on port quarter and stern during entire watch. Signals: 4:05, A to Y—We are making 8.5 knots at present speed. 4:30, Y to A—We are fitting a wire hawser in case

anything happens to this one. Sig. W. H. Emory. 5:00, A to Y—Speed for last hour was 8 knots by your log. 5:30, A to Y—Eight. 6:30, Y to A—In case of man overboard, I will blow two whistles, and at night will burn blue light. 6:40, A to Y—We will same.

(Signed) GEORGE BREED, Lieutenant.

6 p. m. to 8 p. m.

Fair. Light variable breeze. On course N. by W. $7\frac{1}{8}$ W. p. c. Steaming under two boilers with U. S. S. AMPHITRITE in tow. At 6:50 disconnected boiler C. At end of watch P. L. 33.9. Average steam 145 lbs.; revolutions 49.4.

(Signed) C. D. STEARNS, Ensign.

8 p. m. to midnight.

Fair and pleasant. Towing AMPHITRITE. At 10:27 light of Gt. Inagua Island off starboard bow, and at 11:42 abeam. Distant 10 miles. At 11:42 changed course from N. by W. $7\frac{1}{8}$ W. p. c. to N. N. W. $\frac{1}{8}$ W. p. c. P. L. 63.9. Signals: 8:20, A to Y—If hawser parts at night, two whistles will be the signal. 11:40, Y to A—Eight compass. 11:40, A to Y—Please use lantern. 11:50, Y to A—The magnetic course is N. N. W. (8 c.).

(Signed) J. L. STICHT, Ensign.

WILLIAM P. WHITE,
Lieutenant and Navigator.

U. S. S. YOSEMITE.

At sea, en route from Mole St. Nicholas, September 14th, 1898.
Midnight to 4 a. m.

Light breeze. Clear and smooth. Towing AMPHITRITE. 1:30 lost sight of light on Gt. Inagua Island. Barometer falling slowly. Signals: Y to A—1-C] at 4:00.

(Signed) JOHN BURNS, Ensign.

4 a. m. to 8 a. m.

Clear and warm. Gentle to moderate breezes from Southward and Westward. Towing AMPHITRITE. Course N. N. W. $\frac{1}{8}$ W. At 7:40 sighted Castle Island Light ahead, and changed course to N. $\frac{3}{4}$ W. Barometer steady.

(Signed) GEORGE BREED, Lieutenant.

8 a. m. to meridian.

Fair and hot. Light breeze from S. S. W. hauling to S. W. On course N. $\frac{3}{4}$ W. p. c. with U. S. S. AMPHITRITE in tow. Made following changes of course: At 8:23 to N. N. W. to $\frac{1}{8}$ W. p. c. P. L. 33.8. At 8:34 to N. by W. $\frac{1}{8}$ W. p. c. P. L. 36.2. At 9:40 to N. by W. $\frac{3}{4}$ W. p. c. P. L. 45.5. Made routine signals to the AMPHITRITE. Following punishments awarded by Commanding Officer: ——— (app.

2 c.) and ——— (Sea.) one week extra duty for going below during anchor watch. At 9:30 exercised crew at general quarters. At end of watch P. L. 64.1. Average steam 145 lbs.; 51 revolutions. Signals; 9:40, Y to A—4 compass. 9:15, Y to A—When light bears abeam and with your permission steer N. by W. $\frac{5}{8}$ W. magnetic. 10:00, Y to A—Absentees 15, sick 11. 11:00, A to Y—What is condition of your two sick men. 11:45, Y to A—Surgeon reports patients feeling better. Conditions unchanged. 12:00, Y to A—Lat. Num. 22, Ans. 24; Long. 74, Ans. 27 Num. Coal on hand, 850 tons. Coal consumed, 40 tons.

(Signed) C. D. STEARNS, Ensign.

Meridian to 4 p. m.

Fair and hot. Light breezes from West. At 1:08 when P. L. 74.3 changed course from N. by W. $\frac{3}{4}$ W. p. c. to N. $\frac{1}{2}$ E. p. c. At 2:30 P. L. 84.9. Bird Island L. H. on starboard bow and at 3:25 P. L. 91.0 abeam distant 69 miles. Instructed apprentice boys in signalling and heaving the lead. Passed a fruit steamer standing to South. Signals: 12:25, A to Y—Our noon positions coincide. 1:10, Y to A—Compass 3. Y to A—Unless you give more chain or we slow down the line is liable to part at any time. 6:20, A to Y—Slow down to seven knots, and what is the size of your wire hawser? 6:22, Y to A—Size of hawser is four inches. 6:25, A to Y—Is your wire hawser fitted with thimbles at both ends? 6:30, Y to A—It is not yet fitted. 6:52, A to Y—I think she is all right with present speed and sea. 7:00, Y to A—Earnestly request that tomorrow you will pay out 25 fathoms of chain. If so, feel sure of successful tow, otherwise am sure of a failure. 7:05, A to Y—Will attempt it on the morning. Show your truck light. 9:38, A to Y—What was your speed last hour? Y to A—Six and two-tenths. 9:40, A to Y—Increase speed to seven knots. 10:00, Y to A—Have increased speed as ordered, but consider it dangerous to line as at present rigged. 10:10, A to Y—Keep speed at seven knots unless ordered to reduce it.

(Signed) J. L. STICHT, Ensign.

4 p. m. to 6 p. m.

Squally to S. W. Light breeze. Small Southerly swell. 5:20 light rain squall. Evening quarters for setting up drill. Towing Amphitrite.

(Signed) JOHN BURNS, Ensign.

6 p. m. to 8 p. m.

Cloudy and warm. Light and gentle breezes from S. W. Towing AMPHITRITE. At 6:15 slowed to 43 revolutions, and at 7:30 40 revolutions. Course N. $\frac{1}{2}$ E. Sighted two steamers, one going North, and the other to the South. Barometer rising slowly. Very distant lightning in S. W. Sea smooth, with long swell.

(Signed) GEORGE BREED, Lieutenant.

8 p. m. to midnight.

Fair; light airs to light breeze from S. W. On course N. $\frac{1}{2}$ E. p. c. with U. S. S. AMPHITRITE in tow. At 9:50 increased speed to 43 revolutions by order Senior Officer Present. At end of watch P. L. 50.3. Average steam 140 lbs. 42.2 revolutions.

(Signed) C. D. STEARNS, Ensign.

WILLIAM P. WHITE,
Lieutenant and Navigator.

U. S. S. YOSEMITE,
September 15th, 1898.

Midnight to 4 a. m.

Fair and pleasant. Light airs from S. W. Barometer steady. On course N. $\frac{1}{2}$ E. p. c. Towing U. S. S. AMPHITRITE. At 1:18 P. L. 59.1. San Salvador Light on port bow. At 2:30 abeam. P. L. 66.8. Distant 7.7 miles. At 12:20 changed revolutions from 43 to 45. At 2:48 A signalled—Make six knots. At 2:55 changed from 45 to 39 revolutions, and at 3:30 changed to 42 revolutions. Patent log gave unreliable results, due mostly to propeller of log striking tow line. At 2:50 signalled to A—Compass course N. $\frac{1}{4}$ W. and at 2:55 P. L. 74.4.

(Signed) J. L. STICHT, Ensign.

4 a. m. to 8 a. m.

Light breeze; small S. E. sea. Towing AMPHITRITE. 43 revolutions. 7:30 47 revolutions; 8:00 50 revolutions. Partly cloudy; warm weather at 8:00 a. m.

(Signed) JOHN BURNS, Ensign.

8 a. m. to meridian.

Clear and warm. Light breeze from Southward and Westward. Barometer steady. Sea smooth, with long swell from E. S. E. Towing AMPHITRITE. 50 revolutions. Began shifting coal from bags on bower berth deck to bunkers. Mustered at quarters. By order of the Commanding Officer, the following named men were declared deserters from this vessel and from the U. S. Naval service from September 5th, 1898, inclusive: ——— (lds.), ——— (Sea.), ——— (a. 2 c.), ——— (a. 2 c.), ——— (a. 2 c.), ——— (a. 2 c.), ——— (Has. App.), ——— (C. P.), ——— (C. P.), ——— (a. 2 c.). Signals sent and received during watch: A to Y—Cannot lengthen chain. If you can shackle wire hawser to Manila do so, lengthen tow line. Y to A—Gave orders last night to fit the wire hawser. It will be ready by afternoon. Request that you reconsider your decision about the chain, as without the chain the elasticity of the hawser will soon go, and it will part with first good

head sea even with the—the wire hawser is the only reserve we have. A to Y—I will risk parting hawser if wire one is shackled on as proposed. I have towed this way before with no chain at all. A to Y—Surgeon reports patients doing well. No material change. Y to A—The junior officer of the watch is on duty aft during the night with special orders to keep lookout on tow. Y to A—Coal expended, 35 tons. Coal on hand, 815 tons. Lat. N. 29° 09'. Long. 74° 20' W.

(Signed) GEORGE BREED, Lieutenant.

Meridian to 4 p. m.

Cloudy. Light breezes from S. W. On course N. $\frac{1}{2}$ W. p. c., with U. S. S. AMPHITRITE in tow. At 1:12 stopped, hauled in P. L., reading 41.0, and shackled wire hawser to ten inch hawser, and at 2:40 started ahead again, towing AMPHITRITE by a ten inch hawser and wire hawser. At end of watch P. L. 50.1. Average steam 155; revolutions 50. Exchanged following signals with AMPHITRITE: Y to A—The wire hawser has been fitted. A to Y—Stop and shackle wire hawser, and in starting we will assist with engines. A to Y—Are you nearly ready? Y to A—Am all ready. Let me straighten wire out. A to Y—Same speed eight knots. Y to A—Am gradually increasing the revolutions. A to Y—Is wire hawser shackled at both ends? Y to A—Yes.

(Signed) C. D. STEARNS, Ensign.

4 p. m. to 6 p. m.

Fair and hot. Light breezes from S. W. At 4:35 changed revolutions from 50 to 53. Signals: Y to A—What speed did your log register for the hour ending 4 p. m.? A to Y—Seven and a half. A to Y—Please rig steam light.

(Signed) J. L. STICHT, Ensign.

6 p. m. to 8 p. m.

Continuous rain all around. 6:45 hawser parted. Signals: A to Y—We will steam until daylight; speed five knots. Y to A—Can I follow on quarter? A to Y—Yes. Y to A—Request a steam light.

(Signed) JOHN BURNS, Ensign.

8 p. m. to midnight.

Cloudy and warm, with heavy rain squalls from S. S. E. Light and fresh breeze from Southward and Eastward. At 8:40 started ahead. Course N. $\frac{1}{2}$ W. Keeping AMPHITRITE on starboard bow. Following signals: Y to A—We are ready to go ahead. A to Y—Go ahead. We are on our course.

(Signed) GEORGE BREED, Lieutenant.

WILLIAM P. WHITE,
Lieutenant and Navigator.

U. S. S. YOSEMITE,

At sea, en route from Mole St. Nicholas to Norfolk,
September 16th, 1898.

Midnight to 4 a. m.

Cloudy. Light and gentle breeze from S. E. On course N. p. c. Steaming on port quarter of U. S. S. AMPHITRITE. At end of watch P. L. 2.6. Average steam 120 lbs.; 24.25 revolutions.

(Signed) C. D. STEARNS, Ensign.

4 a. m. to 8 a. m.

Passing rain squall first, then fair rest of watch. Light and gentle breezes from S. W. At 6:15 stopped. Lowered life boat and sent shackle and thimble to AMPHITRITE then went ahead on port quarter of A., at 25 revolutions. Signals as follows: A to Y—Have you got the shackle and thimble? If so, please send them aboard. Y to A—We have the thimble and shackle, which connected the two hawsers. Will send them aboard soon. A to Y—Send shackle and thimble aboard at once. Y to A—I would like to wait until waste part of squall is over before lowering. Y to A—We have been working on the wire hawser since daylight. It will be ready about 11:00. It is kinked and stranded ten fathoms from end. As refitted will be 100 fathoms. Y to A—Will use five inch hawser as heaving line. Y to A—Note received. Contents noted. Stranding of wire line due to torsional strain of Manila hawser. Will occur again if any life is left in Manila line. Therefore considers bow chain only practicable method as capstan can have it in.

(Signed) J. L. STICHT, Ensign.

8 a. m. to meridian.

Light breeze. Squally to Westward. Steaming 25 revolutions. Temperatures of magazines: Forward 88-87; 87-87, mid.; 86-87° aft. To keep up with AMPHITRITE, stopping and going ahead. Latter part clear; pleasant. Long S. E. swell. Signals as follows: A to Y—We will tow same as before with wire and Manila hawsers. A to Y—Our hawser is ready. Y to A—We are doing our best with steel hawser. Y to A—Surgeon reports patients doing well. Y to A—What course are you steering? A to Y—Numberal 1, compass (N. $\frac{1}{4}$ W.). Y to A—Find by morning sights we are here set about ten miles to Westward. A to Y—All right. Keep present course. Y to A—They are working their best, but will not have steel hawser ready before noon. Y to A—Lat. num. 26-15; long. 74-19. Coal on hand, 785 tons. Coal expended, 30 tons. Y to A—All ready. A to Y—Will take line at one o'clock.

(Signed) JOHN BURNS, Ensign.

Meridian to 4 p. m.

Fair and warm. Light to gentle breeze from S. E. Long swell from E. S. E. Started ahead towing AMPHITRITE at 1:33. Set speed

at 40 revolutions; at 3:00 o'clock increased speed to 42 revolutions; at 4:00 o'clock decreased speed to 40 revolutions. Pat. log foul of tow line. Hauled it in, and at 3:30 put it over again, reading 28.7. Barometer steady. Following signals were made: A to Y—Will stop at one; then send line. Y to A—What magnetic course shall I steer. A to Y—North one-fourth West. Y to A—Please inform me if my speed exceeds or is less than six knots by your log. Am giving my engines 40 revolutions, which should give six knots. A to Y—Our log reads five eight. A to Y—For last hour logged six and four-tenths.

(Signed) GEORGE BREED, Lieutenant.

4 p. m. to 6 p. m.

Fair. Light breeze from S. E. On course N. $\frac{1}{8}$ W. p. c. with U. S. S. AMPHITRITE in tow. Following signal made by AMPHITRITE: Six and three-tenths knot by wig wag.

(Signed) C. D. STEARNS, Ensign.

6 p. m. to 8 p. m.

Fair. Light breezes shifting from S. E. to East. On course N. $\frac{1}{8}$ W. p. c. towing AMPHITRITE. Following signals: 6:00, A to Y—Log for hour five and nine-tenths. 6:00, A to Y—Log six and two-tenths. 8:00, A to Y—Speed six knots and three-tenths.

(Signed) J. L. STICHT, Ensign.

8 p. m. to midnight.

Light breeze from S. E. Clear weather. Moderate Easterly swell. Towing AMPHITRITE. Making 40 revolutions. 11:00 log foul of towing hawser. Following signals: 9:00, A to Y—Six and one-tenth. 10:00, A to Y—Six and one-tenth. 11:00, A to Y—Six. 12:00, A to Y—Six and one-tenth.

(Signed) JOHN BURNS, Ensign.

WILLIAM P. WHITE,
Lieutenant and Navigator.

U. S. S. YOSEMITE,

At sea, en route from Mole St. Nicholas to Norfolk,
September 17th, 1898.

Midnight to 4 a. m.

Cloudy, warm and pleasant. Gentle to fresh breeze from E. by S. Light rain squalls at end of watch. Towing U. S. AMPHITRITE. Moderate sea, with long swell from Eastward. Course N. $\frac{1}{4}$ W. Signals from A to Y—6.1, 5.9, 6.4, 5.6.

(Signed) GEORGE BREED, Lieutenant.

4 a. m. to 8 a. m.

Fair. Light breeze from East. On course N. $\frac{1}{4}$ W. p. c. with U. S. S. AMPHITRITE in tow. Field Day. Average steam 135 lbs.; 39.8 revolutions. Hauled patent log on account of fouling hawser. Signals from A to Y—6, 6, 6, 6.5.

(Signed) C. D. STEARNS, Ensign.

8 a. m. to meridian.

Fair. Light breezes from N. E. to N. N. E. Long swell from S. E. Ship rolling easily. Heaviest roll noted $13\frac{1}{2}^{\circ}$ to starboard, $19\frac{1}{2}^{\circ}$ to port. Field Day. Speed about 6 knots. Revolutions $39\frac{3}{4}$. Highest temperature of magazines, 87° . By order of the Commanding Officer the following named men were declared deserters from this vessel and from the U. S. Naval service from September 7th, 1898, inclusive, viz.: ——— (C. P.), ——— (C. P.), ——— (pyt. marine). Renewed for six months from September 16th, 1898, the acting appointment as gunners' mate, third class, of C. F. Busch. Following signals: A to Y—5.9, 6. Y to A—Sick numeral 11. Surgeon reports patients doing well. 11, A to Y—6. Y to A—Lat. $29^{\circ} 33'$; long. $74^{\circ} 37'$. Coal on hand, 750. Expended, 35.

(Signed) J. L. STICHT, Ensign.

Meridian to 4 p. m.

Light breeze; clear weather; long Easterly swell. Ship rolling gently. Towing Monitor AMPHITRITE. Engine turning 40 revolutions. At 3:40 light rain squall. Following signals from A to Y—6.3, 6, for last hour 5.9, 5.

(Signed) JOHN BURNS, Ensign.

Fair and pleasant. Light to moderate breeze from N. E. Small water spout passed to Northward. Threw overboard 126 lbs. codfish, condemned by Board. Long Easterly swell. Sunset in cloud bank under greenish sky, preceded by yellowish white. Barometer steady. Towing AMPHITRITE at about 40 revolutions. Mustered at quarters. Signals from A to Y—6.

(Signed) GEORGE BREED, Lieutenant.

6 p. m. to 8 p. m.

Fair. Moderate breeze from N. E. On course N. $\frac{1}{4}$ W. p. c. U. S. S. AMPHITRITE in tow. Received following signals: 5.9, 5.7, speed is dropping. Please make six knots. Average steam, 135 lbs.

(Signed) C. D. STEARNS, Ensign.

8 p. m. to midnight.

Fair and warm. Moderate to breezes from N. E. On course N. $\frac{1}{4}$

W. p. c. At 8:20 changed revolutions from 40 to 43. Following signals from A to Y—5.9, 6.1.

(Signed) J. L. STICHT, Ensign.

WILLIAM P. WHITE,
Lieutenant and Navigator.

U. S. S. YOSEMITE,

At sea, en route from Mole St. Nicholas to Norfolk,
September 18th, 1898.

Midnight to 4 a. m.

Light breeze; clear sky; large Easterly swell; ship rolling heavily; towing AMPHITRITE. 43 revolutions. Signals from A to Y at 1:00—6.5. 2:00—6.4 last hour. 3:00—6.4.

(Signed) JOHN BURNS, Ensign.

4 a. m. to 8 a. m.

Fair and pleasant. Light to moderate breeze from N. E. Towing AMPHITRITE. Long Easterly swell. Barometer rising. Signals: Y to A, 6:53—What did your log read at six o'clock? A to Y—Six and six-tenths. 7:00, A to Y—6.2. 8:00, A to Y—6.2.

(Signed) GEORGE BREED, Lieutenant.

8 a. m. to meridian.

Fair. Light to gentle breeze from N. E., backing to N. N. E. At 10:00 Commanding Officer inspected ship and crew at quarters. By order of Commanding Officer, the following named men were declared deserters from this vessel and from the U. S. Naval service from September 8th, 1898, inclusive, viz., — — (W. T.), — — (Pvt.), — — (lds.). Renewed for six months from August 27th, 1898, the acting appointment as water tender of James Morton. Average steam, 140 lbs. 43 revolutions. Signals: 9:10, A to Y—We intend to steam in addition to towing with speed cone. Keep your present revolutions. 9:10, Y to A—Surgeon reports patients doing well. 10:00, Y. to A—Absentees none, sick nine. 10:30, A to Y—Our bridle and hawser are slack. Increase revolutions enough for one knot more. We are making 42 revolutions. 10:45 o'clock, Y to A—Speed increased one knot, revolutions increased from 43 to 48. 11:45, A to Y—Five one-half knots; increase speed. 12:12, A to Y—Increase revolutions to make eight five. 12:00, Y to A—Long. 75. lat. 31°, 55'. Coal on hand, 715 tons; coal expended, 35 tons.

(Signed) C. D. STEARNS, Ensign.

Meridian to 4 p. m.

Fair. Gentle to light breezes from N. by W. to N. Barometer slowly falling. By order of Commanding Officer, as per recommendation of board of survey, threw overboard 1,500 lbs. of codfish, bought

of A. H. Lockhart, at St. Thomas. Towing AMPHITRITE. 50 revolutions, speed. Signals: 12:30, Y to A—Have increased gradually to 55, which should give eight and one-half. Our line looks from this end as if it would soon part at such speed. 12:00, A to Y—Decrease to 50. 1:05, Y to A—What speed for last hour? 1:10, A to Y—Nine. 2:00, A to Y—Nine. 3:00, A to Y—9.1. 3:30, Y to A—The strain on the line is increasing with the speed. 3:38, A to Y—Keep up present speed. 4:00, A to Y—9.1.

(Signed) J. L. STICHT, Ensign.

4 p. m. to 6 p. m.

Light breeze; partly cloudy; large Easterly swell. Ship rolling heavily. Signals: 5:00, A to Y—88. 5:30, A to Y—In case engines stop to replace broken hawser will show red light. 6:00, A to Y—89.

(Signed) JOHN BURNS, Ensign.

6 p. m. to 8 p. m.

Fair and pleasant. Light to moderate breezes from N. by E. Towing AMPHITRITE. Long Easterly swell. Barometer rising slowly. 50.5 revolutions. Signals: 6:10, Y to A—We have been making 50 revolutions since the order. 7:00, A to Y—9 knots. 8:00, A to Y—9 knots.

(Signed) GEORGE BREED, Lieutenant.

8 p. m. to midnight.

Clear. Light breeze from N. E. shifting to N. W. last hour. On course N. $\frac{1}{4}$ W. p. c. with U. S. S. AMPHITRITE in tow. At 11:00 changed course W. $\frac{7}{8}$ W. p. c. Average steam, 135 lbs.; 50 revolutions. Signals: 8:05, A to Y—At 11 o'clock changed course to N. $\frac{3}{4}$ W. magnetic. 9:00, A to Y—Eight nine. 10:00, A to Y—Nine five. 11:00, A to Y—3-c. 11:05, A to Y—Nine three. 12:00, A to Y—Nine.

(Signed) C. D. STEARNS, Ensign.

WILLIAM P. WHITE,
Lieutenant and Navigator.

U. S. S. YOSEMITE,

Midnight to 4 a. m.

Clear and cool. Light to gentle breezes from S. W.

(Signed) C. D. STEARNS, Ensign.

4 a. m. to 8 a. m.

Cloudy and cool. Light airs and light breezes from S. W. and gentle breeze from N. W. Barometer rising. Began hoisting ammunition to gun deck. Powder lighter came alongside at 7 o'clock. Received on board the following provisions: Bread, 136 lbs.; beef, 170 lbs.; vegetables, 170 lbs.

(Signed) GEORGE BREED, Lieutenant.

8 a. m. to meridian.

Cloudy. Gentle to stiff breeze from N. W. Swung to ebb tide at 9:10. Lighter alongside receiving ammunition from this ship. Lieutenant W. P. White left ship on two days leave of absence, and Ensign J. L. Sticht on one week leave of absence.

(Signed) C. D. STEARNS, Ensign.

Meridian to 4 p. m.

Cloudy; moderate breeze from N. W. Hauling to North. At 1:00 lighter left ship with working party of men and all but 500 rounds of ammunition. Sent working party ashore, returning at 4. Began swinging to flood tide at 3:45. Crew cleaning ship.

(Signed) C. D. STEARNS, Ensign.

4 p. m. to 8 p. m.

Cloudy; gentle to moderate breeze from North, hauling to N. E. Working parties returned.

(Signed) C. D. STEARNS, Ensign.

8 p. m. to midnight.

Overcast and cloudy. Gentle to moderate breeze from E. N. E. Barometer rising. By order of Commanding Officer, —— (Lds.) released from confinement and turned over to the Doctor, he having been put on the sick list.

(Signed) C. D. STEARNS, Ensign.

WILLIAM P. WHITE,
Lieutenant and Navigator.

U. S. S. YOSEMITE,

League Island Navy Yard, Pa., September 25th.

Midnight to 4 a. m.

Cloudy; light breeze from E. N. E., backing to N. E. Barometer steady.

(Signed) C. D. STEARNS, Ensign.

4 a. m. to 8 a. m.

Overcast; light airs to light variable breeze. Began swinging to flood tide at 4:15.

(Signed) C. D. STEARNS, Ensign.

8 a. m. to meridian.

Overcast; light North East breeze. 9:20 quarters for muster. 10:00 crews of six-pounders dismounting guns. First, Second, Third and Fourth Divisions hoisting provisions from hold to berth deck. Young, M. A. (C. P.) granted acting appointment as yeoman third class for six months from September 24th. Renewed for six months from date, the following acting appointments, viz., Willie, J. (Cox.), Girdts, W. A. (G. M. 3 c.). 10:40 commenced to swing to ebb tide. Temperature of magazines forward and main, 87°.

(Signed) JOHN BURNS, Ensign.

Meridian to 4 p. m.

Overcast; light S. E. breeze. 1:00 6-pounder gun crews cleaning parts. First, Second, Third and Fourth Divisions hoisting provisions out of holds and store rooms. Barometer falling slowly.

(Signed) JOHN BURNS, Ensign.

4 p. m. to 8 p. m.

Overcast. Light Southerly airs. 4:30 finished hoisting stores for day. 6:30 visiting party from MINNEAPOLIS and KATAHDIN visiting to 8 p. m.

(Signed) JOHN BURNS, Ensign.

8 p. m. to midnight.

Overcast and calm. Temperature of magazines 86° forward and main. ——— (mess. att.) to stand at mast from 9 p. m. to midnight for leaving his post in ward room.

(Signed) JOHN BURNS, Ensign.

WILLIAM P. WHITE,
Lieutenant and Navigator.

U. S. S. YOSEMITE,

Navy Yard, League Island, Pa., September 26th, 1898.

Midnight to 4 a. m.

Overcast and calm. Barometer slowly falling.

(Signed) JOHN BURNS, Ensign.

4 a. m. to 8 a. m.

Overcast and calm. 5:30 hoisted powder flag and commenced to get up ammunition from main and forward magazines. 7:00 commenced loading into lighter.

(Signed) JOHN BURNS, Ensign.

8 a. m. to meridian.

Light air from S. W. Finished unloading ammunition. Sent men on lighter to transfer ammunition from ammunition lighter to magazines. J. P. Joyce (p. m.) was transferred to Marine Barracks, with bag and hammock. Began shellacking gun deck.

(Signed) GEORGE BREED, Lieutenant.

Meridian to 4 p. m.

Cloudy and rainy. Calms and light to gentle breezes from North and S. S. W. with occasional thunder and lightning. Finished shellacking gun deck. By order of Commanding Officer, ——— (C. P.) was placed in confinement to wait action of Navy Department.

(Signed) GEORGE BREED, Lieutenant.

4 p. m. to 8 p. m.

Overcast: cloudy and rainy, with thunder and lightning first part of watch. Swung to flood about 7 o'clock. Ammunition party returned.

(Signed) GEORGE BREED, Lieutenant.

8 p. m. to midnight.

Overcast and cloudy. Light to moderate breeze to light airs from S. W. Light fog about 11 o'clock.

(Signed) GEORGE BREED, Lieutenant.

WILLIAM P. WHITE,
Lieutenant and Navigator.

OFFICIAL REPORTS OF BATTLE OF JUNE 28.

U. S. S. YOSEMITE,
Blockade off San Juan, Porto Rico, June 30, 1898.

Sir:

1. I have the honor to report that about 5:30 a. m. on the morning of Tuesday, June 28th, sighted a steamer to the westward about two miles distant. At this time the YOSEMITE was circling under slow speed with her port helm, a short distance off Salinas Point. The weather was thick and squally, which accounts for the steamer not being sighted previously. This I state from personal observation as I had been on deck some time before the steamer was sighted. This vessel—name to me still unknown—answered the description of the "Montserrat" which Captain Sigsbee told me on Sunday was expected at this port. The vessel had a black hull and red boot-topping, one smokestack, painted lead color, three masts, fore and aft-rigged, top-masts housed, bowsprit with jib and flying jib, flaring bow. Morro Castle bore at this time about E. S. E. distant five miles.

2. The moment the steamer was sighted the indicator was pushed to full speed which was at once responded to by the engines. The YOSEMITE was headed for the stranger. The latter had just come out of a rain squall and apparently made out the YOSEMITE about the same moment as she herself was sighted. The steamer turned head inshore, distance about three miles, with the evident intention of getting under the guns of Fort Canuelo by skirting along the edge of the reefs. Having overhauled a small vessel the day previously close to the reef, and about the same position, I was not unfamiliar with the hydrography, so headed inshore a little more than the stranger. Seeing our intention the steamer was instantly headed for the shore and beached on the reef six miles to the westward of Morro Castle.

3. The YOSEMITE went to quarters for battle upon the sighting of the steamer. She was manoeuvred as near the Spanish steamer as it was deemed prudent to go on account of the reef, the discolored water of which could be seen off our bows at a short distance and not permitting with safety a nearer approach than 4,000 yards. The YOSEMITE remained in the vicinity of this position for some time during which over 200 5" shell and shrapnel and a number 6 pdr. shell were discharged with great deliberation at the Spaniard. When it was deemed that the steamer was sufficiently disabled the YOSEMITE steamed for a Spanish cruiser and a gunboat which had come to the relief of the beached steamer and as the fire of the cruiser's large guns endangered the safety of the YOSEMITE's exposed boilers.

4. During the period alluded to in the preceding paragraph I was very much surprised to find that the guns of Morro and the water battery below it, had the exact range of the YOSEMITE's position and were effective at that distance. During this time many projectiles of larger caliber passed over the YOSEMITE, none fell short more than 200 yards, and one within a few feet of the stern, throwing the spray

aboard. The long range of the guns of Morro will be best appreciated from the fact that the time of flight taken was 35 seconds.

5. The cruiser and gunboat mentioned in paragraph 3 steamed to the westward of Salinas Point and added their fire to that of the batteries. The large cruiser has two guns of 8" or 9.2" caliber and her shot would go over the YOSEMITE, while the former was still beyond the range of our guns. Finding that we could not reach the Spanish cruiser with our main battery steamed for her, and when we were within range of 4,600 yards opened fire on her with our starboard battery of rapid fire guns. This fire seemed to be very effective and made the Spanish cruiser join her consort, the gunboat, in seeking shelter under the guns of Morro.

6. About the same time that we ceased firing on the Spanish cruiser, a torpedo boat was seen going at full speed near the shore in the direction of the beached steamer, headed under full steam as near the coast as possible. Gave the torpedo boat a hot ten minutes with the main and secondary batteries, port side, when the torpedo boat sought refuge behind the steamer. Remained off the steamer about ten minutes firing shell and shrapnel until she was on fire aft, at the same time the YOSEMITE being under fire of the Forts and long range guns of the Spanish cruiser.

7. Deeming that all had been done that was possible with a single vessel, to prevent the blockade being broken, the YOSEMITE hauled off and stood for the Spanish cruiser, which again retired close to the fort.

8. Remained the rest of the day cleared for action and with battle flags flying outside the fire of the forts awaiting an attack from the cruiser, gunboat and torpedo boat, but they failed to come out.

9. From the commencement of this affair, until its end the ship was under fire about three hours. Although the enemy made excellent line shots and some very near to the ship, she was not struck once.

10. The spirit and behavior of the officers and crew was in every way highly commendable.

11. Enclosed is the report of the Executive Officer, enclosure "A," made in compliance with paragraph 525, U. S. Naval Regulations.

I have the honor to be,

Very respectfully,

W. H. EMORY,
Commander, U. S. N.,
Commanding.

To

The Commander-in-Chief,
U. S. Naval Force,
N. A. Station.

U. S. S. YOSEMITE,
Off San Juan, 28 June, 1898.

Sir:

In accordance with paragraph 525, U. S. Naval Regulations, I have the honor to report that during our affair of this morning in driving a Spanish steamer on the beach and engaging two Spanish gunboats and a torpedo boat, while at the same time being fired upon by the Morro Castle and its water battery at San Juan, the officers and men of this ship's company behaved with most commendable coolness and discipline, and that the serving of the battery was as quiet and orderly as it could have been at ordinary target practice.

During the three phases of our engagement, first with the steamer, second with the gunboats and third with the gunboats and torpedo boat combined, we expended, in all, the following ammunition:

251 common shell,
25 5-in. shrapnel,
56 6-pdr. A. P. shell.

Very respectfully,

N. SARGENT, Executive Officer,

Lieutenant, U. S. Navy.

To

The Commanding Officer
U. S. S. Yosemite.

U. S. S. YOSEMITE,
Hampton Roads, Va., July 22nd, 1898.

Sir:

1. I have the honor to make the following cruising report of the U. S. S. YOSEMITE, under my command, since her departure from and return to the United States.

2. Sailed from Hampton Roads, Va., May 30, and convoyed the ammunition ship *ARMERIA* to Key West, Fla., where arrived June 2nd, ordered by the Secretary of the Navy.

3. Sailed from Key West June 7th to report to senior officer present blockade off Havana for special duty in connection with the overhauling of two Spanish auxiliary cruisers reported about to leave Havana. Arrived Havana and reported to senior officer same day. Ordered by Commodore Geo. C. Remey, U. S. N., commanding Naval Base.

4. Sailed from Havana 4 a. m. June 8th to convoy the U. S. S. *PANTHER* and battalion of marines to Santiago de Cuba. Orders delivered on blockade by U. S. S. *PANTHER* from Commodore Geo. C. Remey, U. S. N., commanding Naval Base, Key West. Arrived Santiago de Cuba July 10th and reported to the Commander-in-Chief, Rear-Admiral Wm. T. Sampson, U. S. N.

5. Sailed from Santiago July 10 to convoy U. S. S. PANTHER to Guantanamo Harbor, where arrived the same day. Ordered by the Commander-in-Chief.

6. Remained in Guantanamo Harbor twenty-four hours assisting in landing of the marines at that port. Ordered by Commander B. H. McCalla, commanding U. S. S. MARBLEHEAD and S. O. P.

7. Sailed from Guantanamo June 11th for Santiago, where arrived the same day and took position on blockade between flagship and the U. S. S. NEW ORLEANS. Ordered by Commander-in-Chief.

8. June 12th sailed from Santiago on a cruise to intercept Spanish steamer Purissimo Concepcion, and with instructions to stop at Kingston, Jamaica, if necessary to make inquiries concerning her. Cruised between Montego Bay, Jamaica, and Cape Cruz, Cuba, until June 16th, when anchored at Kingston, Jamaica. Left Kingston June 17th and arrived at Santiago, Cuba, June 19th. Ordered by the Commander-in-Chief.

9. Sailed June 19 from Santiago to Guantanamo to fill up with coal. Left Guantanamo June 23, for San Juan, Puerto Rico, via North Coast of Hayti. Arrived at San Juan and reported to Captain Sigsbee, U. S. N., commanding U. S. S. ST. PAUL and S. O. P., June 25th. June 26th the ST. PAUL sailed for New York, since which time and until July 14th, the YOSEMITE alone blockaded the port of San Juan.

10. On July 15, upon being relieved by the NEW ORLEANS, proceeded to St. Thomas, Danish West Indies, where arrived the same day, and in obedience to orders filled up with coal and provisions. Ordered by Commodore J. C. Watson, U. S. N., commanding the Eastern Squadron.

11. Sailed from St. Thomas July 18th for Hampton Roads, where arrived July 22. Ordered by Commodore J. C. Watson, U. S. N., in a telegram sent by him from Playa del Este, Cuba.

I have the honor to be,

Very respectfully,

W. H. EMORY,
Commander, U. S. N.
Commanding.

To
The Chief of the Bureau of Navigation,
Washington, D. C.

From "La Correspondencia," of San Juan de Puerto Rico, 28th June, 1898.

ANOTHER NAVAL BATTLE IN VIEW OF THE CITY.

Since the happenings that have taken place in view of this capital, from the memorable 22nd inst., which began with the glorious battle between two of our small boats against a powerful American cruiser, seldom is the day we do not see the North walls crowded by

our populace, who do not wish to miss the opportunity of witnessing what might happen; now that the blockade exists and with only one cruiser, because of the two of them that were here blockading, one disappeared three days since.

At dawn today, we noticed to the Westward a large trans-Atlantic steamer, bound towards the port in the waters of El Dorado, and that the American cruiser started to cross her, firing incessantly shells of different calibers, and which some say were two hundred pounders. The trans-Atlantic steamer did not respond to the attack, and headed for shore, stranding near "Punta Salinas, between this port and the Coal Sardinera."

In the meantime, our small boats, "Isabel II.," "General Concha" and "Ponce de Leon" started, the first two engaging the American and the other helping the stranded liner.

From 6:30 to 9 that morning, the "Isabel" fired 32 shots, the "Concha" 7, and the American cruiser 51. Morro (Castle) also fired two projectiles, one went short and the other hit the target. The American retired at full speed, avoiding the land batteries and those of our ships, firing ceased, and up to the hour of writing, 1 p. m., no re-engagement had taken place. The shots from the "Isabel" appear to have hit the mark.

The first particulars we got were that the liner was the "Monserat," but afterwards positively ascertained that it was the "Antonio Lopez" of the Spanish trans-Atlantic line, a fine boat but not very fast, which started from Cadiz on the 16th, bound for this port, having a cargo of sundries. It is believed that she was coming from the Northwest and passed our port last night, but as the lighthouse and the city were in darkness, could not exactly make out the position to place herself opposite the entrance. The "Ponce de Leon" returned to port at about 11, having on board the first officer and Chaplain of the "Antonio Lopez," who, in company with the coast guards, had a conference with the Captain-General.

The "Ponce de Leon" lost her forward mast in a collision with the "Antonio Lopez," and we have not so far heard of any damages to the "Isabel" and "Concha," who remain out of the harbor. The first thing this morning we started one of our reporters to Punta Salinas to obtain exact information of what had taken place, so as to apprise our readers, but as he has not yet returned and not likely to before we go to press, we can only give what we hear from other sources and which are not always correct. However, we are informed that the "Antonio Lopez" was hit quite a number of times on the hull, some shots going right through, and others fell on deck. The Captain and part of the crew, some sixty or seventy men, abandoned the ship, making use of the boats they had on board. As they were coming ashore quite a number of shells were fired at them, but we are not aware if any were killed. It is reported that only the first officer, the

Chaplain and eight or ten sailors remained on board, and were later taken off by the "Ponce de Leon." The enemy did not attack the latter until she got to the "Antonio Lopez," when several shells struck her but did her no damage. At noon it was reported that a special train had started for El Dorado, or to the nearest point where the "Antonio Lopez" was stranded, to help the crew that had landed there, but we are informed from the telephone office at that place that up to 1:30 no train had started, neither did they think that any would be.

From 1:30 to 2 p. m. the steamer "Yvo Bosch" and the boats "Carmelita," "Catalina" and "Esperanza" have started, taking on board men to work on the "Antonio Lopez" and endeavor to float her, as she is stranded on a sand bank and thought to be uninjured.

The steamers "Gran Antilla," "Manuela" and "Paulina" are under steam to render the "Lopez" all the assistance possible, should she need it. At this moment (2 p. m.) of closing this report the cruiser is to the Northwest at quite a distance, and the "Isabel II." and the "Concha" near to the "Antonio Lopez." Tomorrow we will give further particulars, and will rectify any errors which we have involuntarily made.

From the "Correspondencia of Puerto Rico," 29th June, 1898.

We are informed that yesterday at about 2 p. m. a steam launch was seen to start from the side of the American cruiser bound Northwest with great speed. It is supposed she carried dispatches, either to St. Thomas or probably to the other cruiser which we have not seen for some days.

We are informed from Isabela and Quebradillas that yesterday morning were heard continual gun reports quite distinctly, which caused great anxiety in the neighborhood.

YESTERDAY'S FIGHT—MORE DETAILS.

As we promised yesterday, we now publish the particulars of yesterday's naval fight in our waters, obtained from one of our reporters.

THE "ANTONIO LOPEZ" FROM CADIZ TO PUERTO RICO.

It is said that the crew of this handsome trans-Atlantic liner, on starting from Cadiz, was preceded by quite a number of Spanish men-of-war, and by appearances it was supposed to be bound for Puerto Rico by the way she was steering, but having lost sight of her the following day, we are unable to say to what port she intends to go. As we said yesterday, this liner left Cadiz on the 16th and surmised would be in our waters on Monday night, without anything happening to her during her voyage.

Being aware of the channels in our canal, she remained near us

until dawn, so that she could get in without any danger; at not quite daylight the enemy's ship started towards her, firing shells like hail. At this moment there started from our port, valiant and decided, the cruiser "Isabel 2nd," who having been on guard all the night, was ready to start, engaging with the colossus Yankee in a well fought combat, assisted with the no less valiant boats "Concha" and "Ponce de Leon," in the meantime the "Antonio Lopez" got nearer to Punta Salinas standing in Bahía Honda in two and one-half metres of water.

The crew consisted of 129 individuals, one doctor, two assistants, one druggist and a chaplain.

IN PUNTA SALINAS.

At that point there is one company of soldiers. On hearing of the occurrence the military at Bayamon under Captain Hernandez started for the scene; he and his men were the first to arrive, taking hold of things, caring for the crew and giving them a good breakfast.

Later a section of the mounted guard arrived from the same place, and with the other military, trenches were dug and preparations made.

THE STRANDED.

These got to shore in different ways, some in boats, others swimming; everything was to save one's life from the imminent dangers which surrounded them; opposite to a ship who was incessantly bombarding theirs some of them disembarked on the beach at Punta Salinas, others, amongst them the Captain, by the beach of Toa Baja. Only one amongst them was hurt in one of his legs, and was sent to Bayamon under the doctor's care.

THE RAILROAD.

At the request of the agents of the "Antonio Lopez" an express train was started to bring back the crew, but on arrival they found none there and returned.

THE ENEMY'S BOAT.

According to the statements made by a number of the crew of the "Antonio Lopez" to our representative, the night before, when near our coast, the American cruiser frequently applied her search-lights on her, the Americans believing that said boat was Spanish, and at daylight she flew the Spanish flag. Those who have seen the said Yankee guard say it is one of the five boats that Ward's Line have recently constructed and which made the run between New York and Habana. She is supposed to be about 5,000 tons and steams about 20 miles an hour. She carries eight 4-inch guns and fires 33 pound shells; besides eight more guns whose shells only weigh six pounds. A curi-

ous observer has had the patience to measure the velocity of the shells, and says that those of the Yankee cruiser take 25 seconds in falling, and those of our cruisers a little more. Some people from Bayamon assure us that they noticed when the enemy's cruiser started a steam launch bound towards St. Thomas evidently with dispatches.

DAMAGES.

The "Antonio Lopez" sustained them in the machinery (engine), but of little importance; another in the kitchen and the loss of the flag, which was knocked off by a shell.

The "Ponce de Leon" had one of her masts damaged, caused by attaching a cable to it so as to tow the stranded ship. Up to date, these are the particulars we have been able to secure of what has occurred, always fearing to exaggerate or omit in what we have published, and in any case we are always willing to make corrections.

Even up to this morning the "Antonio Lopez" has not been floated, although we soon expect her to, as work on her is progressing very fast and her unloading continues rapidly.

A newspaper from Habana says: The "Antonio Lopez" is still able to continue in service, although quite a number of shells dropped on her deck.

We have seen from this morning a schooner in the Northwest, near our coast, who is waiting an opportunity to come into port. She is supposed to be the "Joven Maria," hailing from Caborojo, loaded with salt consigned to Troncoso Bros. & Co. The American cruiser is cruising opposite our port.

We hear from Bayamon that quite a number of American ships were seen yesterday protecting a landing near Punta Salinas. It is supposed that the gun reports that were heard were owing to this circumstance. Certain it is, that the inhabitants were on the alert all day.

One hundred more workmen were added yesterday to help in the unloading of the "Antonio Lopez." Each man gets \$3.00 for day and \$4.00 for night work.

Shortly after yesterday's occurrences important services were rendered by a company of engineers belonging to the heliographic department by placing itself in communication between El Morro and Punta Salinas.

We have not received any letters or newspapers by the "Antonio Lopez," and consequently we are in the dark as to what is taking place.

Although we were informed yesterday that no train had left for Toa Baja or El Dorado in search of the crew of the "Antonio Lopez," we find that one did go and returned empty. Unfortunately we are in a very backward country, where everything is made a mystery of.

We are informed that the "Antonio Lopez" started from Cadiz in company of the fleet under the command of Admiral Camera, bound for this island. This fleet must be the one that was seen passing Gibraltar on the 17th, according to the telegrams from St. Thomas.

About 1:30 p. m. to-day, and while the "Isabel 2nd," "Concha" and "Ponce de Leon" were endeavoring to float the "Antonio Lopez," the American cruiser approached them, but when she saw that the three ships faced her, she retired at full speed. It seems that she respects our boats.

From "La Correspondencia" of San Juan, Puerto Rico, 30th June, 1898.

"THE ANTONIO LOPEZ."

A friend of ours who went on board the "Antonio Lopez" on the 28th inst., and returned yesterday at 9 a. m., informs us that he made a personal inspection on board, reporting that said liner was hit seven times, with the following damage:

One shot smashed the starboard railing; another went through the engine-room sky-lights, exploding inside, breaking the glasses; fragments of this shell penetrated the adjoining departments, destroying the staircase of the second cabin; the third penetrated the smoke-stacks through; the fourth struck the larboard side, denting the plates; the fifth caused damage to the first engineer's cabin; the sixth hit the kitchen.

(Note: "The report says the 'Antonio Lopez' was struck seven times, but particulars of only six shots are made in the original.)

On board were the Adjutant of the Port Captain's office, Senor Fernandez; the Captain of "Criollo," Senor Pujales; the Chief of the Hydrographic Commission, Senor Parez Machado; the Captain of Artillery, Senor Acha; the Staff Captain, Senor Barrera; an officer of the liner and three or four of the crew. The captain, engineers, stokers, and the others of the crew had not returned on board at the hour of our friend's departure.

The mates and part of the crews of the warships "Terror" and "Criollo" were on guard and had charge of the salvage. Up to 9 a. m. yesterday, hundreds of packages of merchandise were landed on the beach, part of the cargo on board the liner, and it is believed that with slight repairs she will be able to continue in the service.

Owing to the absence from on board of the stewards and attendants, no end of inconvenience was experienced by the passengers, being unable to get anything to eat, and not even crockery to eat from. We are informed it was necessary to send on shore for engineers and stokers, in order to attempt to float her with her own engines.

From "La Correspondencia" of San Juan, Puerto Rico, 30th June, 1898.

THE SCHOONER "JOVEN MARIA" SHOT AT BY THE "YANKEE."

Confirming the slight information we gave yesterday relating to the insignificant encounter between the Yankee cruiser that is blockading us and the defenceless coasting schooner "Joven Maria," we are going to give the particulars we have been able to gather.

The schooner "Joven Maria" is of foreign construction, as prior to this she was under the English flag. She is not very fast; she requires a strong wind in order to navigate her, and very often she will not answer her helm. At present she had a crew of her Captain Don Antonio Llorea, her super-cargo Don Ramon Rodriguez and sailors Francisco Castro, Narciso Puveiro, Antonio Revera, Felix Oquendo and Manuel Fuenteo. We are not aware of her tonnage, but we know that she can carry from 2,800 to 3,000 cwts., according to the kind of cargo she takes.

She loaded at Caborajo about 2,500 tons of salt consigned to Troncoso Bros. & Co., merchants of this capital, on her way she stopped at Aguadilla, and yesterday she had to contend with her poor sailing qualities, besides being becalmed in trying to make the port, which she was unable to gain. At this time she was approached by the American cruiser, who fired seven shots at her, and which fell close to the small boat.

In these critical moments the captain had charge of the helm, and directing her head towards the enemy's ships, they secured the helm, launched the small boat, to which the crew was transferred, abandoning the schooner and started for land, arriving without accident on the beach at Cerrogordo, near the Vega Baja. It is said the captain is confined to his bed suffering with fever.

The schooner went on her way alone very gently, and during all the afternoon of yesterday she was seen near the cruiser to the windward. We are not aware that she was searched, and this morning we are unable to get sight of her.
